

day 30 prep

first, should i get them to use bashrc to update their PYTHONPATH and then edit `.jupyter/jupyter_server_config.py` to auto import some libraries? also how do you reset a library once you have messed with it?

operating system -->	linux	mac	windows
1.	gnome_text_editor	./bash_rc	echo \$SHELL

I also need to cook up some new extensions... primarily two or three dimensional motion, each with second order equations.

Also we need to work more on the shooting method....
